Hi Jamie-

I would be happy to facilitate a call with our air staff. We would be able to speak to the federal role in any state implementation of this proposed legislation. Our staff needs a few days to look this over, but maybe we could schedule something for next week?

Thanks,

Laura

Subject: question on auto emissions regulations

Hi Laura,

I have a question regarding a proposed bill in the Pennsylvania state Senate that would exempt motor vehicles of more recent years from the requirements of Pennsylvania's current auto emissions program.

Given EPA's role on regulation of auto emissions, can you give any insight on how the state could implement a change to emissions requirements?

I've attached the bill if it's helpful and please let me know if you have any questions.

Thanks,
Jamie
